

# Sungyoung Lee (Young Lee)

4116 236th St Sw, Mountlake Terrace, WA 98043  
[syounglee012@gmail.com](mailto:syounglee012@gmail.com) | [Github](#) | [Linkedin](#) | (602) 622-6974

## Skills

JavaScript · HTML · CSS · React.js · Next.js · Node.js · Redux · jQuery · Strapi ·  
Styled-Components · Bootstrap · Jest · Testing Library · Babel · Webpack

## Experiences

### Triumph Group (Contract via BlueRock) - Full-Stack Developer (Sep 2022 - present)

- Created accessible, responsive, and functional user interfaces to allow visitors on any device to have the same perfect user experience by using Styled-Components
- Created the user experience that fetched, parsed, and formatted analytic data, and relayed it into React components
- Collaborated on the Complexity Score tool, which removed process bottlenecks by assigning scores to cost, time, and compliance issues, increasing efficiency
- Designed and developed web applications using JavaScript frameworks Next.js

## Projects

### Soldier Challengers - [Project URL](#) · [Demo](#) · [Github](#)

- Worked with professional designers using an agile methodology and process
- Built a production-ready web application to help veterans to accomplish a set goal in life
- Worked in many roles such as PM, Front-End dev, and Quality Engineer
- Came up with requirements and helped to define MVP
- Implemented a chatting module using Socket.io to enable a real-time communication between users
- Built a robust social login feature to reduce friction

### Seoul Restroom - [Demo](#) · [Github](#)

- Managed and led a team of 4 from designing front-end UI components to configuring back-end APIs
- Came up with the project idea "Seoul Restroom" and delegated tasks to each team member
- Implemented review feature that enhances information sharing among the users
- Used MongoDB to quickly adapt to alterations in data structure during the project
- Implemented a map feature by using Google-map API that allows users to quickly locate nearby restrooms

### Looking Good Blog - [Demo](#) · [Github](#)

- Facilitated and led overall CSS effort as a lead front-end dev
- Used CSS Masonry layout to dynamically populate randomly curated photos with different dimensions

## Education

MARCH 2022 - JUNE 2022

### Hanghae99 Coding Bootcamp, South Korea (Remote) - *Front-End Developer*

- 3 months fast-paced intensive coding bootcamp, studied 12-15 hours a day, 7 days a week
- One of the 50 students who completed the course and the final project out of 250 enrollees
- Awarded as the team member with the best communication skills by the participants

JANUARY 2020 - Present

### The Southern Baptist Theological Seminary, Kentucky - *Mdiv in Biblical Counseling*
